Subject:

SOCIAL RESPONSIBILITY POLICY

B2Gold ("B2Gold" or the "Company") will engage openly and respectfully with community stakeholders. The Company will make meaningful and sustainable contributions to the communities where it works.

B2Gold is committed to making a positive impact in the communities where we work. B2Gold recognizes that its role in social responsibility extends to all aspects of the Company's activities including health, safety, environment and social. The Company will understand and integrate social factors into its decision-making process at all stages of its activities - from exploration and operations through to closure and reclamation.

B2Gold's social responsibility commitments include:

- Engage regularly, openly and honestly with its host communities and all stakeholders;
- Understand the views of people impacted by the Company's operations and consider these in its decision making;
- Respect and preserve existing cultures and heritage in its host communities;
- Ensure that the Company's social responsibility is evident in its commitments to responsible health, safety and environmental performance;
- Make positive contributions to society by investing in community development projects in the communities where it operates;
- Commit to sustainable community development in areas of health, education and micro-economic development;
- Respect human rights and act with due diligence to avoid infringing on the rights of others, to address adverse impacts that occur, and to facilitate access to remedy;
- Respect the rights and interests of Indigenous Peoples, and identify and understand the interests and perspectives of Indigenous People when seeking to develop or operate a mining activity;
- Share its social responsibility commitments to the Company's supply chain;
